Realise-Bio

Ein Interreg VI Deutschland - Nederland Projekt

eco-friendly materials from poly hydroxy alkanates tuned for injection moulding

EMPHATI

HO-CH(R)-CH2-C(=O)-[O-CH(R)-CH2-C(=O)]n-O-CH(R)-CH2-C(=O)-OH

Open projects

Consortia of expertise support sme´s in innovative projects

- ▀ **Realise-Bio:** circular utilisation of residual, by-product and waste streams of organic products – (sub)project size 150k€ - subsidy 50%
- ▀ **Emphati:** develop new sustainable and environmentally friendly products based on natural plastics that are biodegradable, PHAs (polyhydroxyalkanoates) –
 - * feasibility studies à 20k€
 - * (sub)project size 150k€ - subsidy 50%
- ▀ **X-Lives:** circular and sustainable value creation of polymer, fibre and mineral materials (e.g.for building and road construction) – (sub)project size 150k€ - subsidy 50%

Open projects

- ▀ **SuSuCoats:** projects in the field of surface chemistry
– (sub)project size 150k€ - subsidy 50%
- ▀ **MNM:** upscaling production of smart and sustainable materials into lightweight parts for mobility, advanced battery systems and renewable energy solutions
– (sub)project size 150k€ - subsidy 50%
- ▀ **InnoLoop:** frontrunner projects in industrial robotics, artificial intelligence, IoT, additive manufacturing or virtual reality – (sub)project size 150k€ - subsidy 50%
- ▀ **KPF INDUSTRIE_I4.0:** fast follower projects in digital technologies –
 - * feasibility studies: budget & max 10K€ (50%)
 - * (sub)project size 100k€ - subsidy 50%

Regular projects

- Priority 1: A more **innovative** programme area
 - > innovation projects responding to societal challenges
- Priority 2: A **greener** programme area
 - > innovative projects that contribute to the reduction of CO2 emissions, reduce use of raw materials and lead to better handling of changing climate conditions
- Priority 3: A more **social**, inclusive, connected border region
 - > healthcare, education, labour market
- Priority 4: A Europe **closer to the citizen** in the border area
 - > resolving legal and other obstacles in the border area (governments/citizens)

Project features Regular Projects

- Only cooperation projects with at least one project **partner from Germany and the Netherlands** each and a **maximum of 10 project partners** in total.
-> joint preparation, joint implementation, joint financing of the project, i.e. persons meet and work together.
- The **maximum duration** of the project is **48 months**, including the submission of the last request for funding.
- The projects must **benefit the programme area** and its population. (e.g. No scientific research)
- Continuity** of project activities must be convincingly demonstrated in the project application.
- Maximum **subsidy** 5M€ = ±50% (Prio 1&2, universities 70%) or ± 70% (Prio 3&4)

INTERESTING

Why participate?

- **Short approval procedures** (3-6 months open projects / 9-18 month for regular projects)
- **Simple application forms** (open projects)
- **Simplified methods of declaration** sometimes in combination with proof of project results (function groups with standard hourly wages, standard cost options (labour costs+40% flat rate of other costs; budget approval)
- **Intensive guidance** (finding partners, feedback on concept applications)
- **High succes rates** ($\pm 80\%$)
- **No calls** - always open; cut-off dates 6 (open projects) – 3 (regular projects)
