

WORKSHOP

Tuesday, 22 July 2025

11:00 - 15:00

Jade Hochschule, Oldenburg

Building with Cattail – Navigating the Path to Legal Approval

If you aim to bring building materials made from cattail to market maturity, approval under building law is essential. However, the steps required for this are often unclear and it takes a good deal of legal understanding to find your way through the jungle of abbreviations and definitions. We would like to bring light into the dark of these subjects with the expertise of Prof. Jens-Uwe Schulz and by discussing together.

Therefore, we would like to invite you as colleagues from building materials research and application to our workshop “Building with Cattail – Navigating the Path to Legal Approval” on 22 July 2025 at the Jade Hochschule in Oldenburg (room EP)!

In order to enable an intensive exchange, we would like to keep the event small and therefore ask you not to forward the date. Thank you very much! The event will be held in English. Online participation is generally possible, but not for the Working Session (13:30 – 14:30).

Agenda

11:00 Welcome and Introductory Round

11:30 Input: Legal Basis and Steps for Obtaining a Building Law Approval

Prof. Dipl.-Ing. Jens-Uwe Schulz

University of Applied Science and Arts Ostwestfalen-Lippe

12:15 Questions

12:30 Lunch

13:30 Working Session

Which specific steps need to follow for the different building materials that are developed? Who can do what?

14:30 Wrap-up and Final Discussion

The workshop is organized in cooperation with the research projects “PALUDIFarming” and “Paludi & Bau”. “PALUDIFarming” is funded by Niedersächsisches Ministerium für Ernährung, Landwirtschaft und Verbraucherschutz.

“Paludi & Bau” is carried out as part of the Interreg VI programme Deutschland-Niederland.

Registration

The participation is for free. The number of participants is limited. Please, register here, until Friday, 18 July 2025:
